

Marrietta D. Cline, MD

Dear Parent/Guardian,

Thank you for choosing **Cline Pediatrics, PA**, as your child's medical home!

We strive to provide the most comprehensive, evidence-based, family-centered care possible for your child. We adhere to the highest standards set for both preventative and acute care by the American Academy of Pediatrics. We strive to provide easy access to the practice and that our approach to your child's care coordinates many different aspects that contribute to a positive healthcare experience.

Central to the success of this care is that we work together as a team. Please call our office 281-534-1300 before you decide to go to the Urgent Care or Emergency Department for non-life-threatening health issues and notify the office immediately if your child received any care outside the practice. This enables us to follow up with you and make necessary updates to the medical record.

Please note that **Cline Pediatrics, PA** is dedicated to the health and safety of all our patients. We believe that all children should receive the recommended vaccines according to the guidelines provided by the American Academy of Pediatrics and the CDC. Vaccines are safe and effective in warding off infections and preventing diseases/health complications in children and young adults.

For your convenience, the office hours are Monday – Thursday from 8:00am to 5:00pm, Fridays 8:00am to 1pm.

Expecting mothers and fathers are welcome to come for a visit to our office to meet and talk with our providers to ensure the very best care for your upcoming bundle of joy! After delivery and before leaving the hospital, please contact our office for your newborns follow up visit, usually within 1-2 days of your discharge home.

624FM 517 Rd W. Dickinson, Texas 77539, P:281-534-1300, F:281-534-1306

To enable you to get in and out of the office without delays, please fill out any paperwork necessary before the visit. If you are unable to do so, please arrive at least 15 minutes before your visit to complete your forms in time for your appointment. Before your first visit, please bring a copy of all previous Medical/Immunization records. If you could also complete the Authorization for Release of Medical Information and submit this to your child's previous doctor or clinic, so all previous medical records can be transferred to us.

We are blessed to have you join us at **Cline Pediatrics, PA!**
